**\$350,000,000**

additional dollars set  
aside for K-12  
education

**FINALLY!**

Illinois has a budget!

## Fun Fact

Illinois budget releases money for Illinois schools only if an "Evidence Based" formula is used.

Senate Bill 1 is an example of an Evidence Based Funding Formula that distributes dollars to school districts across the state in an equitable manner. Senate Bill 1 has passed both the House and Senate.

If, when Governor Rauner gets Senate Bill 1 and he signs it, Southwestern CUSD #9 can expect to receive approximately \$294,000 MORE in state funding this coming school year.

Except Governor Rauner has said he will veto the bill

A veto on Senate Bill 1 will STOP school funding from flowing to schools without an Evidence Based Funding Formula enacted into law.

**+294,000**

**August 10th**

Illinois schools will NOT receive their first General State Aid payment August 10th

if Springfield cannot agree on an Evidence Based Funding Formula

**This is unacceptable!**
